```
"(A) IN GENERAL.—The term adjusted base
                 period
                 income means the average of the inflation
                 adiusted
                 sion incomes of the corporation for each base
                 period
                                                             vear.
                 (B) INFLATION-ADJUSTED POSSESSION INCOME For
                 purposes of subparagraph (A). the inflation-
                 adiusted
                                                           posses-
                 sion income of any corporation for any base
                 neriod
                                                              year
                 shall be an amount equal to the sum of—
"(i) the possession income of
                                  possession income of
                                                              such
                     corporation
                                                               for
                     such base period vear. plus
               "(ii) such possession income multiplied by the infla-
          tion adjustment percentage for such base period year.
             "(C) INFLATION ADJUSTMENT PERCENTAGE—For pursubparagraph (B). the inflation adjustment
poses
     percentage for any base period year means the percentage
                                                (if any) by which—
                         "(i) the CP<mark>I</mark> for 1995. exceeds
                         "(ii) the CPI for the calendar vear in
                     which
                                                               the
                     base
                             period
                                               for
                                                      which
                                                               the
                                       vear
                     determination
                                                             being
                     made ends
                  For purposes of the preceding sentence, the
                                        for
                  calendar vear is the CPI (as defined in
                                                           l(f)(5)
                  section
                  for such year under section lff(4).
                      "(D) INCREASE IN INFLATION
                                                       ADJUSTMENT
                  PERCENTAGE
                  FOR GROWTH DURING BASE YEARS.—The inflation
                  adjust-
                  ment
                           percentage
                                           (determined
                  subparagraph
                                             (C)
                                                             with-
                  out regard to this subparagraph) for each of
                                                           taxable
                  years referred to in paragraph (5)(A) shall be
                  increased
                  by—
                         "(i) 5 percentage points in the case of a
                     taxable
                     vear ending during the 1-vear period ending
                     on
                                                          October
                         "(ii) 10.25 percentage points in the case
                                                           taxable
                     vear ending during the 1-vear period ending
                                                          October
                     on
                      13,1994:
                         "(iii) 15.76 percentage points in the case
                     able vear ending during the 1-vear period
                      ending
                      October 13. 1993:
                         "(iv) 21.5<mark>5</mark> percentage points in the case
                     able vear ending during the 1-vear period
                      endina
                      October 13. 1992: and
                         (v) 27.63 percentage points in the case
                                                           taxable
                     vear ending during the 1-vear period ending
                                                           October
                  "(5) BASE PERIOD YEAR.—For purposes of this
```

subsection—

"(A) IN GENERAL.—The term base period year means each of 3 taxable years which are among the 5 most. taxable years of the corporation ending before October 14, 1995, determined by disregarding—
"(i) one taxable year for which the corporation inflation-adjusted laraest had the possession income, and "(ii) one taxable year for which the corporation had the smallest inflation-adjusted possession income.
"(B) CORPORATIONS NOT HAVING SIGNIFICANT POSSES-SION INCOME THROUGHOUT 5-YEAR PERIOD.—

"(i) IN GENERAL.—If a corporation does not significant possession income for each of

the most
